File ORE Survey

Executive

7 March 1950

Management Officer

Survey Report of the ORE Administrative Staff

1. Reference is made to the attached Survey Report of the ORE Administrative Staff, dated 29 November 1949, and the comments of the Assistant Director for Reports and Estimates.

2. Action has been taken with the Chief, Personnel Division, to route all application files of prospective ORE employees to the Chief, Administrative Staff, ORE, for processing to interested ORE Divisions.

3. The Management Staff is firm in the belief that the information control procedure outlined in Tab A of the report is soundly conceived, and we must continue to consider it. A further recommendation will be made to your office later in the ORE survey. A similar procedure has been in effect for OSI for over six months with excellent results.

4. The proposal concerning the CIA Situation Room outlined in Tab B of the report has been coordinated with the offices indicated. The replies received reveal that interest in an Agency situation room is extremely limited. It is therefore recommended that:

a. The CIA Situation Room as such be eliminated.

b. The Assistant Director for Reports and Estimates retain custody of the room primarily for use of his office and secondarily for use of other activities of the Agency as the occasion may demand.

c. The Assistant Director for Reports and Estimates staff the room with only the minimum personnel necessary to meet the requirements to be established by him.

5. This Staff will continue to work with ORE to establish a satisfactory Agency graphics production program.
